## GENERAL INFORMATION

### RETURNING MATERIAL

TRANSPORTATION CHARGES MUST BE PREPAID ON ALL MATERIALS SHIPPED TO THE FACTORY.

Returned material tags and forms are furnished gratis by the Cab Service and Parts Corporation, 315 West 68th. Street, New York, New York, and should be used whenever parts are returned either for adjustment or for credit. Each part should be tagged and listed separately with full information.

New material and material which has failed in service should be listed on separate reports. Separate reports should be made on different classes of parts returned for adjustment; that is, axle parts and engine parts should be listed on separate reports.

Invoice number must be given on any new parts returned for credit or credit cannot be investigated.

### CLAIMS

Claims for shortage of parts on a shipment must be made within twenty-four hours after delivery and must be made against the carrier. Before the consignee accepts and signs for a shipment, he should examine it for any evidence of its being in bad order. If packing cases are broken or show evidence of rough handling he should refuse shipment unless carrier signs the freight bill indicating damage.

A packing slip accompanies each shipment. The parts are double checked against the slip before the shipment leaves the warehouse.

## WARRANTY

"The Manufacturer warrants each new motor vehicle manufactured by it to be free from defects in material and workmanship under normal use and service, its obligation under this warranty being limited to making good at its factory any part or parts thereof, including all equipment or trade accessories (except tires) supplied by the Motor Vehicle Manufacturer, which shall, within ninety (90) days after making delivery of such vehicle to the original purchaser or before such vehicle has been driven four thousand (4,000) miles, whichever event shall first occur, be returned to it with transportation charges prepaid, and which its examination shall disclose to its satisfaction to have been thus defective; this warranty being expressly in lieu of all other warranties expressed or implied and of all other obligations or liabilities on its part, and it neither assumes nor authorizes any other person to assume for it any liability in connection with the sale of its vehicles.

This warranty shall not apply to any vehicle which shall have been repaired or altered outside of any authorized Checker service station in any way so as, in the judgment of the Manufacturer, to effect its stability or reliability, nor which has been subject to misuse, negligence or accident."

## GENERAL INFORMATION

### INTRODUCTION

This parts and instruction manual is divided into sixteen (16) groups, as follows:

Group I	Frame and Suspension	Group IX	Transmission
Group II	Front Axle	Group X	Propellor Shaft
Group III	Rear Axle	Group XI	Cooling and Heating
Group IV	Brakes	Group XII	Exhaust
Group V	Wheels, Hubs, and Drums	Group XIII	Electrical
Group VI	Steering	Group XIV	Fuel System
Group VII	Engine	Group XV	Lubrication
Group VIII	Clutch	Group XVI	Body

Each group has maintenance instructions, diagrams, exploded views, and parts list. Exploded parts illustrations are placed between maintenance instruction and parts list for easy reference.

The manual is made up in loose leaf form, so that additional sheets can be added or changes made in parts pages. Parts pages are dated in upper right hand corner to aid in keeping record of superseding pages.

Parts lists show by indentation of the parts names, that these parts are included in the assembly above them.

### EXAMPLE

- 1 621526 Back Assembly, Complete-Driver Seat, Red
- 1 622731 Spring, Drivers Seat Back
- 1 622686 Pad-Hair
- 1 621529 Cover Assembly Complete
- 1 623508 Cover-Drivers Seat Back, Center
- 2 623557 Cover-Drivers Seat Back, Side

Parts indented from Assembly No. 621526, are component parts of assembly. Those parts indented from Assembly No. 621529, are component parts of that assembly, but still parts of main Assembly No. 621526.

At the back of Manual are numerical and alphabetical parts lists for ease in locating parts.

N.S.S. noted on illustrations means part Not Serviced Separately.

### INSTRUCTIONS FOR ORDERING PARTS

Orders for parts should be entered on our "Customers Original Order" blanks which will be supplied gratis on request.

The following information is necessary in order that an order may be filled correctly and promptly at our Parts Service Warehouse.

**QUANTITY**—Exact Number. Parts should never be ordered in "sets" or "pairs" except where listed, as these terms are indefinite and liable to be confusing.

**PART NUMBER AND NAME**—State the part name as well as the part number when writing orders. Names such as "Gasket" or "Bracket" are not sufficient. We will not be responsible for errors in shipments unless complete descriptive names as shown in this book, are listed in your orders.

**CAB SERIAL NUMBER**—The Serial Number, Body Number and Engine Number are stamped on an aluminum plate, attached to the dash panel under the right side of the Hood. When ordering body parts, give Body number and Engine number when ordering Engine parts as well as Cab Serial-number.

**WHERE AND HOW TO SHIP**—State street address, Postal Zone number, City and State. Advise how you wish shipment made: Parcel Post, Express, Freight, Air Express or Parcel Post Special Delivery.

**ADDRESS ORDER TO OUR PARTS SERVICE WAREHOUSE**—Cab Service & Parts Corporation, 315 West 68th. Street, New York City 23, New York.

### TERMS

All parts are shipped either C.O.D. or billed to our order with Bill of Lading attached to Sight Draft, F.O.B. our warehouse.
