

# ...and another trailer load of latest 1958 MODEL A-8 CHECKER CABS is on its way.....

- automatic transmission
- power brakes
- power steering

Shown at right: 4 Model A-8 Checker Cabs leaving our lot for delivery to an operator in Columbus, Georgia.

From all over the Eastern Seacoast, alert and cost-conscious operators quickly responded to the recent announcement that the National Transportation Co. of New York was replacing its entire fleet of 500 Model A-8 Checkers with the new 1960 Model A-9 "Built-for-the-purpose" Checker Taxicabs.

Operators telephoned. They came here. They saw the cars. And they have been buying these superb cabs IN QUANTITY because they were able to verify and substantiate for themselves our reports that they are indeed an outstanding buy. Of latest 1958 manufacture, they have been constantly operated under a strictly supervised PREVENTIVE MAINTENANCE PROGRAM.

These cars are fulfilling all claims made for them. They are equipped with automatic transmission, power steering and power brakes. In EXCELLENT CONDITION, mechanically and in appearance, they are fully equipped and READY TO ROLL for many, many thousands of LOW-COST MILES.

Delivery will be made at Elizabeth, New Jersey. Sample cabs may be seen at the following locations:
