

Check your cabs with
CHECKER CABS
 for all these **EXCLUSIVE**
 Taxicab Features

See Why More and More Owners, Drivers and Passengers say: "IF IT ISN'T A CHECKER CAB IT ISN'T A TAXICAB"

	<p>✓ REMOVABLE FENDERS It isn't a major body job to fix a CHECKER fender because all fenders and panels are quickly and easily removable for in-shop repair.</p>		<p>✓ SAFE, FLAT FLOOR No step-downs, step-ups, high sills or tunnel hump to make passengers stumble and fall. More headroom, legroom and elbow room for all.</p>
<p>✓ SMALL, MANEUVERABLE Only 200 inches over-all, with 120-inch wheelbase. CHECKER CABS are small and maneuverable in any traffic; turn easily in a circle 37-feet in diameter.</p>		<p>✓ 7-PASSENGER PAYLOAD Three on the big rear seat, two on CHECKER CAB'S exclusive folding auxiliary seats, two beside the driver. A really big payload in a small taxicab.</p>	
	<p>✓ BIG ALL-DAY TANK Only CHECKER CABS have the big 22-gallon all-day taxicab gasoline tank. No shift-time delays for gassing when you fill up just once a day.</p>		<p>✓ PASSENGER PREFERENCE Passengers prefer CHECKER CABS for their roomy comfort, for ease, dignity and safety when getting in and out. CHECKER is the public's choice.</p>
