WELCOME TO THE GROWING NUMBER OF CHECKER AUTOMOBILE OWNERS

Cab Service & Parts Corporation, the Service Division of Checker Motors Corporation, is always ready to assist you with any service information which you may require in the maintenance and operation of your Checker automobile.

As the necessity for supplementary information arises, our Service Division issues, from time to time, various bulletins, in an effort to pass on to you - our customer - the benefit of experiences reported to us by our field service representatives.

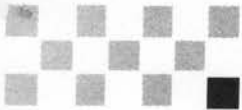

These bulletins will frequently help you to institute the necessary preventive maintenance measures by having them brought to your immediate attention. Past experience indicates that passing on this timely information is often instrumental in extending the profitable service life of your Checker automobile, and reducing maintenance procedures to the lowest possible minimum.

We trust you will feel free to avail yourself of this accumulated experience, as over the years the Service Division has gathered considerable information in maintenance procedures.

The Service and Parts Division personnel are ready to assist you whenever necessary, or, if you are in the vicinity of our Service Divisions by all means, step in, so that we can discuss any questions you may have relative to the maintenance and operation of your Checker automobile.

Dear Customer:

Customers who purchase Checker materials are always assured of every consideration and courtesy in the event any credit adjustment or inspection should be necessary.

However, in order to expedite the regular processing of such requests, materials should be returned to the Service Division where purchases were made originally.

Your co-operation in this matter will help us to continue to serve your requirements more efficiently.
