SUBJECT: MUSIC RADIO

Due to the fact that Bendix no longer builds the radio we are currently using in production, it was necessary to find another radio that would be available for our production.

The Motorola Model CM2T, all transistor push button radio with push pull output is best suited for our requirements.

List of New Parts Req'd.

639208 Kit-Music Radio-Motorola  
640407 Brkt.-Radio to Glove Compt.  
640408 Brace-Radio Mtg.  
638170 Housing-Speaker-A-11 Only (salvage from 637200 Kit)

List of Parts to be Cancelled

637200 Kit-Music Radio  
639499 Kit-Music Radio (Passenger)  
640349 Brace-Radio Mtg.  
640259 Brkt.-Radio to Glove Compt.

This revision is to be effective when stock on hand of old Radio Kits is exhausted.

The Radio Kits are interchangeable providing mounting bracket & mounting brace is changed at the same time.

\* Note: This revision incorporated on chassis #5968

\* Note added 6-13-63;
